

AP Spanish IV: *“To have a second language is to possess a second soul”* Charlemagne

¡Bienvenidas a la clase de Español 4 AP!

You are encouraged to watch television series and movies, as well as listen to music and podcasts in Spanish during the summer in order to continue progressing in the target language. In doing so, you will learn new vocabulary and sentence structure that will help develop listening and comprehension skills in Spanish. Here is my playlist on Spotify: [Fiesta de Sra. Breaux](#)

In addition, you have two tasks to complete: *Para seguir practicando el idioma, vas a ver una serie en español, así podrás progresar en tu entendimiento de la lengua española y acostumbrarte (get used) al ritmo, entonación y diferentes acentos.*

1. Watch the first season of “Silvana sin Lana” on Netflix. *(If you can not access Netflix please contact me for an alternative assignment).*
2. This course can be intense as there are many different grammar topics that are used throughout the year. In order to be successful, review past grammar topics [here](#).

I am excited for this next year and am thrilled to have you a part of the class! We can do this!

Sra. Breaux
